

New state-of-the-art technology and innovative equipment

- CNC controlled
- Bend without tooling
- Cost savings
- Added flexibility

**IT'S A
BIG DEAL!**

**After 35 years in
the industry,
CamGlass is still
the CLEAR choice!**

Our Cutting-edge capabilities

New Flat/Bent Capabilities:

Cylindrically Bent Tempering - *no tooling required*
3.2mm to 19mm thicknesses
Soft coats
Low-E

Existing Bent Capabilities:

Automotive Quality Horizontally Bent Tempering
Sag Bending - 6" (125mm) Depth of Bend
Press Form Bending - 18" (457cm) Depth of Bend

Value Add Capabilities:

Window assemblies
Third Party Logistics (3PL)
Heated Backlites
Fixture Connectors
Safety Glazing Plastics
DOT, ECE, EEC, CCC and SGCC Certifications

**Announcing Our New
Bending System**

**Specialty
Glass Bending**
Just got a whole lot
easier with CamGlass

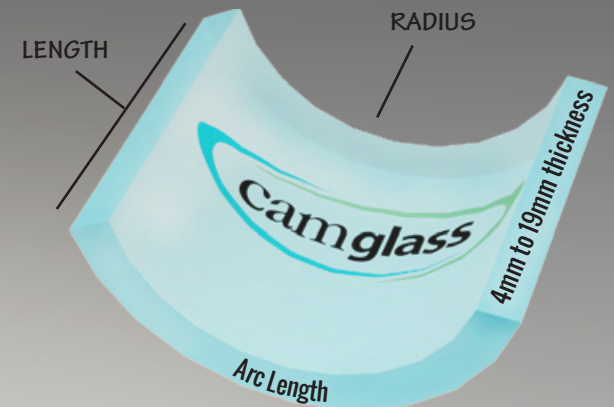

**FIND OUT HOW YOU CAN
BENEFIT FROM OUR NEW
TECHNOLOGY AND EQUIPMENT**

CamGlass Specialty Applications

- Architectural
- Agriculture & Construction
- Fixtures & Furniture
- Automotive
- Marine
- Mass Transit

Continuous Radius Bending Specifications

Minimum Glass Size:	19" x 23" Arc length
Maximum Glass Size:	96" x 98" Arc length
Minimum Radius:	39"
Maximum Radius:	393"

Glass min/max radius are dependent on glass size and thickness.
